

# Sekou Terry

Front End Web Developer

hi@sekouterry.com

## Profile

Seasoned web developer focused on front-end technologies and practical aesthetically pleasing design. Highly effective at assimilating new technologies and adapting to new environments while providing timely results with a strong concern for quality. Key strengths include working well with teams and focusing on creating effective solutions while taking user perspective into consideration.

## Skills

**Adobe Photoshop, Adobe Illustrator, ASP.NET, C++, C#, Django, Drupal, HTML5 & CSS3, Linux/Unix, Microsoft Office & Windows, OpenCart, Python, PHP, Wordpress, Joomla, Javascript, jQuery, Umbraco, XSLT**

## Experience

### Web Developer

2015-2016

*Next Great Student Inc.*, Atlanta Georgia

Wrote the front end interface for their web-based student preparation and review platform from scratch.

- Designed and built 50+ pages/states using HTML5, CSS3 and jQuery
- Worked with an Operations Manager and a JSP developer to complete objectives

### Web Developer, Digital Marketing

2013-2014

*Applied Systems Inc.*, Atlanta Georgia

Started with a core group that grew to manage, modify and maintain digital brand assets crucial to the company's increased profits and valuation.

- Collaborated with a small team on a company-wide rebrand that included rebuilding the company intranet from the ground up including training and documentation. We used ASP.NET, XSLT & the Umbraco framework.
- Rebuilt & rebranded the company's annual user conference website resulting in increased participation year over year.

### Web Developer

2009-2012

*House Digital Media LLC*, Atlanta Georgia

Lead projects with another developer and a designer to build WordPress powered websites for small businesses and organizations.

- Converted PSD templates to XHTML/CSS
- Implemented eCommerce solutions using WordPress and OpenCart

### Web Developer

2006-2008

*Clear Concepts LLC*, Seattle WA

Worked alongside a software engineer to build and maintain an ASP.NET/C#/Microsoft SQL Content Management System from the ground up

- Updated table-based layouts to semantic standards-compliant XHTML
- Converted PSD templates to XHTML/CSS

### Software Testing Intern, Windows Mobile Division

2005-2006

*Microsoft Corporation*, Redmond WA

- Developed a UI in C# for an existing text automation
- Tested Windows Mobile Devices

## Education

### Bachelors of Science in Computer Science

*Morehouse College*, Atlanta, GA
